A diagram of a cell. It consists of a large outer rectangle representing the cell membrane. Inside this rectangle is a large oval representing the nucleus. Within the nucleus are several small black dots representing nucleoli. To the left of the nucleus, there are two small, stylized structures representing mitochondria, each with a vertical line and a horizontal line.

Figure 1. Schematic diagram of the experimental setup. The subject is seated in a chair, viewing a screen displaying a target (a vertical line) and a starting point (a horizontal line). The subject's hand is positioned at the starting point, and the target is located at a distance of 10 cm from the starting point. The subject is instructed to move the hand from the starting point to the target.
