

한남고속선 영천터널 - 토공노반 - 13(42.430~42.440km, L=10m)

42K430

42K440

The technical drawing illustrates the geometry of a 42K430/440 component. It includes three main views: a top view (TCL상면), a front view (TCL측면), and a side view (TCL좌면). The top view shows a rectangular base with a central slot and various dimensions and tolerances. The front view shows the component's profile with a central slot and dimensions. The side view shows the component's profile from the side with dimensions. The drawing uses standard engineering notation for dimensions and tolerances, including decimal values and tolerance ranges (e.g., 15.0/0.1/0.5). The component is labeled with '42K430' and '42K440'.
