

호남고속선 중리교_124 (76.546~76.553km, S25-3)

The drawing illustrates the structural design of a 25-span bridge deck. It includes two cross-sections and two plan views.

Cross-Section TM.251.4: This section shows the deck width and internal structure. It features a central section with a width of 15.0m (center-to-center) and a total width of 15.0m (center-to-center) for the entire section. The section is divided into 11 numbered lanes. The width of each lane is specified as 1.6m (center-to-center). The total width of the section is 15.0m (center-to-center). The section is labeled "TCL상면" (Top View) and "TCL측면" (Side View).

Cross-Section TM.226.2: This section shows the deck width and internal structure. It features a central section with a width of 15.0m (center-to-center) and a total width of 15.0m (center-to-center) for the entire section. The section is divided into 11 numbered lanes. The width of each lane is specified as 1.6m (center-to-center). The total width of the section is 15.0m (center-to-center). The section is labeled "TCL상면" (Top View) and "TCL측면" (Side View).

Plan View 76K546: This view shows the bridge deck layout with 11 numbered lanes. The width of each lane is specified as 1.6m (center-to-center). The total width of the section is 15.0m (center-to-center). The section is labeled "PCL상면" (Top View) and "TCL측면" (Side View).

Plan View 76K553: This view shows the bridge deck layout with 11 numbered lanes. The width of each lane is specified as 1.6m (center-to-center). The total width of the section is 15.0m (center-to-center). The section is labeled "PCL상면" (Top View) and "TCL측면" (Side View).
